

Keravanjoki school

Kerava, Finland

Keravanjoki school

- ▶ A comprehensive school for 1st-9th graders.
- ▶ The school functions in three different buildings.
- ▶ About 80 1st - 2nd graders are located in Ali-Kerava, 350 1st-6th graders in Lapila and 350 7th-9th graders study in Jaakkola.
- ▶ Of all the students, about 120 are non native Finnish speakers.
- ▶ We have about 70 teachers plus other supporting staff.

Jaakkola building in winter

Keravanjoki school

- ▶ We are a municipal school. The students live near the school.
- ▶ The study plan is common to all schools in Finland, with local emphasis.
- ▶ We work 5 days a week, 188 days a year, 22-30 lessons per week.
- ▶ We have both compulsory and optional subjects.

Let's learn together!

- ▶ The motto of our school is "Let's learn together".
- ▶ The school offers an integrated learning path to classes 1.-9.
- ▶ We emphasizes on learning basic information and different basic skills as well as securing postgraduate studies.

Our values

- ▶ In Keravanjoki school we value our own and others' work. The students are directed to do teamwork.
- ▶ Internationality and the environment are strongly visible in the everyday life of our school.
- ▶ We have a friendship school Campo de Flores in Lisbon, Portugal and we take part in an international Erasmus project.
- ▶ We are on a sustainable level as a Green Flag school, which means we emphasize in a sustainable future.

Supportive methods

- ▶ Keravanjoki School is a KiVa-School which means that bullying isn't allowed. Our school has an anti-bullying group that deals with different kinds of arguments among the students.
- ▶ We also have a group of tutor students. The tutor students spread team spirit and improve comfortability in the school as well as prevent bullying. The tutor students participate in lessons and arrange theme days and events for seventh graders.

Internationality and natural sciences

- ▶ At the moment we have two emphasis class in Jaakkola, starting in the 7. grade.
- ▶ The students in the natural science emphasis class are specifically interest in natural sciences. The goal is to improve the students' ability for research and its adaptation.
- ▶ In the international class the goal to increase the students' self-confidence and add their knowledge of different cultures and their appreciation for them. The students have an opportunity to meet people from different cultures and to improve their language skills.
- ▶ A new emphasis class on Sports will start in Autumn 2018.

You will also find creativity in our school
